*Solomon's United Church of Christ ribbon-cutting celebration
in New Franklin, Pennsylvania, December 2024*

*Impact Areas include: Arts, Conservation, Community Development, Faith,
Agriculture, Youth*

\$2M+ Invested

in nonprofit solar
projects in 2024

\$4.6M+ Saved

by nonprofits over the
lifetime of their solar
systems

\$440K+ Unlocked

through **Direct Pay** of
the Solar Investment
Tax Credit

Solar Ambassador Spotlight: Georgia Tech

RE-volv's GA Tech Solar Ambassador Fellows helped LifeLine Animal Project, the largest animal shelter in Georgia go solar. They are projected to save \$1.6M on energy bills over time!

One of the Ambassadors, Julia Fleischman, shared in local TV news:
*"It helps the animal shelter, it helps the students and it also helps
the environment."*

A HISTORIC MOMENT FOR CLEAN ENERGY

Thanks to the Inflation Reduction Act's Direct Pay provision, we've seen more nonprofits interested in going solar than ever before.

SOLAR SUCCESS SPOTLIGHT

Watts-Willowbrook Church of Christ | Compton, California

This project was a collaboration between California Interfaith Power & Light (CIPL) & RE-volv.

This summer, The Brook church celebrated the commissioning of their new 12 kW rooftop solar and upcoming battery storage installation.

Since then, they've been invited to speak at the White House, been featured in Canary Media, the Wall Street Journal, local TV news, and received an award from the Mayor of Compton!

OUR GROWING TEAM

Sarah Bernal

Solar Program Associate
Joined in January 2024

Tierney Sheehan

Communications and
Impact Marketing
Manager
Joined in March 2024

Mallory Morales

Office Manager
Joined in June 2024

Ingrid Morales

Community Programs
Manager
Joining in January 2025
